SAFETY STATEMENT

It is the *policy* of LEI Companies, Inc. to place the utmost importance on the safety and well being of its employees and subcontractors on all projects. It is the *philosophy* of LEI Companies, Inc. that our people are our most important asset and the preservation of employee safety and health must remain a consideration in every facet of our business.

Health and Safety does not occur by chance and one of our primary objectives is to avoid project-related accidents and injuries. In addition, prevention of accidents will take precedence over expediency or short cuts and will remain the ultimate goal of our program.

We recognize that the responsibility of safety and health is a shared responsibility and employees at all levels must work diligently to execute the policy and strictly adhere to the guidelines within it.

Our health and safety program has been developed to assure compliance with federal, state and local regulations with particular emphasis on the Occupational Safety and Health Administration (OSHA), part 1926/1910. It is the obligation of all employees to be knowledgeable of the standards and implement the rules and regulations contained therein on all projects.

A safe operation is organized, structured, clean and capable, but most importantly it is trained. LEI Companies, Inc. strives to promote education and training for all of its employees. Training allows our employees to be in a better position to control accidents and improve the total performance of the company.

The welfare of our employees, subcontractors and customers is the reason for the existence of our company's Safety Program. We are dedicated to a workplace that is free of unsafe conditions, unsafe acts and hazards to your health. To be 100% successful, we must work together. This is a team effort by all and we encourage any recommendations to improve our program.

Safety is more than just a corporate goal; it is a requirement!

NOTE: A copy of LEI Companies, Inc. Health & Safety Program Manual is available in electronic or hard copy, upon request. In addition, LEI Companies, Inc. is Cost Containment Certified and currently has an EMR of .87.
